

### AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

#### Listing of Claims:

1.-13. (Canceled)

14. (Currently Amended) A method of moving a stand mixer, wherein the stand mixer includes a ~~body~~ base having at least a front lower portion, a front upper portion, and a rear lower portion, the base including attachment means capable of receiving a removably detachable bowl; the bowl including ~~with~~ a handle [[,]] positioned at the front lower portion of the base when the bowl is attached to the attachment means; at least one wheel positioned ~~on a~~ at the rear lower portion of the base, and wherein the handle can be lifted upwardly to engage the at least one wheel for movement of the stand mixer, the method comprising:

attaching ~~locking~~ the bowl ~~into~~ to the base at the attachment means;

lifting the handle upwardly from the front lower portion in a direction toward the front upper portion to engage the at least one wheel.

15. (Original) The method of moving a stand mixer of claim 14, wherein the base includes at least one foot that is disengaged when the handle is lifted.

16. (Original) The method of moving a stand mixer of claim 14, further comprising: maneuvering the stand mixer into a desired position.

17. (Original) The method of moving a stand mixer of claim 16, further comprising:  
disengaging the at least one wheel by lowering the handle until the stand mixer rests fully  
upon the base.

18. (Original) The method of moving a stand mixer of claim 14, wherein when the  
base is fully in contact with a surface, the at least one wheel is not in contact with the surface.

19.-20. (Canceled)

21. (New) The method of moving a stand mixer of claim 14 wherein attaching the  
bowl to the base at the attachment means further includes:

locking the bowl into the base.

22. (New) A method of moving a stand mixer, wherein the stand mixer includes a  
base having at least a front lower portion, a front upper portion, and a rear lower portion; the  
base including attachment means capable of receiving a removably detachable bowl; the base  
including a handle positioned at the front lower portion; at least one wheel positioned at the rear  
lower portion of the base; and wherein the handle can be lifted upwardly to engage the at least  
one wheel for movement of a stand mixer, the method comprising:

attaching the bowl to the base at the attachment means; and

lifting the handle upwardly in a direction toward the front upper portion to engage the at  
least one wheel.

23. (New) A method of moving a stand mixer, wherein the stand mixer includes a base having at least a front upper portion and a rear lower portion; the base including attachment means capable of receiving a removably detachable bowl; the base including a handle positioned at the front upper portion; at least one wheel positioned at the rear lower portion of the base; and wherein the handle can be lifted upwardly to engage the at least one wheel for movement of a stand mixer, the method comprising:

attaching the bowl to the base at the attachment means; and

lifting the handle upwardly to engage the at least one wheel.

24. (New) The method of claim 23 wherein the handle is disposed on a top surface of the front upper portion.

25. (New) The method of claim 23 wherein the handle is disposed on a side surface of the front upper portion.

26. (New) The method of claim 23 wherein the handle is disposed on a front attachment surface of the front upper portion.

27. (New) The method of claim 23 including a rear handle disposed at a rear upper portion of the stand mixer.
